AMANZOE PELOPONNESE GREECE

The Amanzoe, located just 25 minutes by helicopter from Athens (2.5 hrs drive) in the Peloponnese countryside is idyllic seclusion. Near the UNESCO World Heritage Site of Epidaurus, other archaeological sites, and a short boat ride from the islands of Spetses and car-free Hydra, this place has space. Pavilions and villas set the tone with expansive terraces, private pools, and glorious views of the sea and olive groves. A beautiful yoga studio, an incredible library with over 1,000 books in several languages, and a youth center focusing on Greek mythology are likely to make you want to set up camp. Lounge peacefully at the Beach Club, discover a Byzantine monastery, visit the honey museum, or hike the mountain villages. Dine on fresh seafood, sip Greek wine, and slip into the sunset with 360-degree views of the rolling hills and coasts of the Peloponnese peninsula.

Greece, with one of the lowest infection rates in Europe, is one of the safest travel destinations in terms of COVID. Check testing and quarantine guidelines at gr.usembassy.gov.

BLACK TOMATO SOLAR ECLIPSE IN ARGENTINA

It's the afternoon of December 14, 2020. You're in the remote Argentinian village of Piedra del Aguila. You've arrived at the confluence of the Chimehuin and Alumine rivers and forded by drift boat to the "G eclipse point," where, wearing eclipse glasses nearby, you'll witness the two minutes and 10 seconds when the moon passes between the Earth and the Sun for the complete solar eclipse. The luxury adventure travel company, Black Tomato, arranged this seven- or 12-day trip to this otherworldly landscape. After the eclipse, you'll stay in magical Blink domes in the sustainable pop-up camp (plush beds, spa facilities) at the base of the Lanin Volcano for an indescribable traditional feast (Patagonian lamb, organic steak, Chilean wine) under the stars before returning to your home base at Tres Rios Lodge, a luxurious retreat in San Martín de Los Andes. Fish, climb, hike, and horseback ride in this spectacular area of the world.
